

Setting Up in Streamline – Less than 5 minutes!

Step 1: Login to Streamline, and go to “Self-Serve Onboarding” or “Third-Party Integrations/Get Tokens”. Select HomeSites and click on “Get Tokens”. Click through to authorize, as this will generate tokens to go live.

Step 2: Create custom Property Fields. Click “Tools” then click “Manage Property Fields” (lower right). Click “Add new Field”. **It’s critical that you create the fields using these exact names** (with underscores and no spaces – you may want to copy/paste).

Please check “Show on Site”. All fields are “One-line String” with the exception of “HomeSite_Description”, which is “Multi-line String”.

Custom Property Fields to create:

HomeSite_Site_Name	(will appear at the top of the page – URL , i.e. “MauiGetaway.com”)
Headline_1	See diagram for positioning of these custom fields
Headline_2	
Sales_Point_1	
Sales_Point_2	
Sales_Point_3	
HomeSite_Phone	Phone number that you’d like all calls to be routed
HomeSite_Email	Email address for form inquiries (they will automatically be inserted into Streamline’s CRM)
HomeSite_Description	Optional – this short paragraph will appear if you enter text, otherwise the “Description” value will be displayed. Set up as “Multi-line String”

For the field "HomeSite_Description", select Multi-line String. This will allow you to create a custom property description for each property's HomeSite. If you elect NOT to create a custom description, the HomeSite will use your standard long description.

Area

Enjoy listening to Gore Creek from each of the two sunny living areas or the master bedroom or from the large deck in this beautiful recently remodeled townhome. The main floor living area serves as the central gathering place for the home and features large comfortable sofas that are perfect for stretching out and relaxing, and a large recliner right by the real wood-burning fireplace (stocked with firewood in the winter). The two living areas are connected with a secure internal stairway which allows traveling parties to spread out over three separate floors. With two living areas and two kitchens, and two home office areas you'll find this townhouse. Each of the living areas features a large 4K TV with HBO, Netflix, Amazon Prime and all the major cable-TV channels.
